Interested? Here's what we're all about:

CUTTING EDGE TECHNOLOGY

Learn how to put robotic technology to the test by designing and building a competition robot.

COLLEGE CASH

FIRST students have access to over 3,500 college scholarships that total over \$80 million.

REAL WORLD BUSINESS EXPERIENCE

Challenge yourself by making business decisions with a budget that is in the tens of thousands of dollars.

LEADERSHIP

Cultivate leadership skills by learning how to motivate team members to accomplish their goals.

COMPETE!

Test your ideas and skills against other high schools from around the world and see where you stand.

PROJECT MANAGEMENT

Take charge of a large-scale project and learn what it takes to be successful.

COMMUNITY OUTREACH

Take ownership of your community and make a difference by helping others in need.

GET VISIBLE

Make valuable connections with our many sponsor organizations and VIPs to start building your career.

Stop in to see us and learn all about what it means to be on a *FIRST* Robotics team.
