Inspiring and empowering learners to achieve a lifetime of success

September 2024

In 2017, our district adopted HMH Journeys, a comprehensive reading program for grades K-5. This program was adopted for an eight-year period by our K-12 Curriculum Council and Board of Education. As we enter the 2024-25 school year, we are on the final year of the Journeys program. Although we will continue to utilize Journeys K-5 this school year, we will also begin a pilot of new literacy programs that focus on the Science of Reading. Teachers throughout the district will instruct with our pilot programs, which include Wonders by McGraw Hill and CKLA by Amplify. By the spring of 2025, our elementary teaching teams, K-12 Curriculum Council, and Board of Education will adopt a new reading program that will begin for the 2025-26 school year. To learn more about the Science of Reading and our K-5 literacy program, please view the companion document at: <https://www.chippewavalleyschools.org/academics/curriculum/elementary-reading-instruction/>

Thank you,

CVS Education Services Department
